WATCHPAX 60

Plug-and-play, dedicated
media server series

WATCHOUT MEDIA SERVER

Unleash the creative potential of WATCHOUT and deliver shows flawlessly with these high-performance units for the most demanding presentation environments.

Power to perform

The WATCHPAX 60 series is a strong addition to Dataton's family of plug-and-play media servers. The series comprises three performance-optimized models offering up to 12 outputs. Sleek, robust and with a compact 2U form factor, WATCHPAX 60 is backed by a two-year warranty.

What sets this series apart is sheer power: in processing, in performance, and in playback. With four output channels and SDI options, redundant power supply, and the latest technology under the hood, this future-proofed unit will deliver your WATCHOUT experience perfectly.

In brief

WATCHPAX 60 is a dedicated, rack-friendly media server series for Dataton WATCHOUT shows. The units feature a high-performance technical specification – designed to play your WATCHOUT shows at their very best. The WATCHPAX 60 series consists of three models designated: **A**, **B**, and **C**.
